

REMARKS

Claims 1-24 are canceled.

Claims 25-53 are added.

Claims 25-53 are pending.

The Examiner states that the disclosure is objected to because it contains embedded hyperlink and/or other forms of browser-executable code. The Examiner further states that the Applicant is required to delete the embedded hyperlink and/or other forms of browser-executable code. The Applicant respectfully asserts that the M.P.E.P. § 608.01(p), page 600-79 actually states: "hyperlinks and/or other browser executable code cannot be incorporated by reference". Mere reference to a hyperlink is not incorporation by reference. The Applicant did not remove references to embedded hyperlink and/or other forms of browser-executable code. The Applicant respectfully asserts that only hyperlinks and/or other browser executable code incorporated by reference are not allowed in the Specification. The Applicant only used references to hyperlinks and did not incorporate the hyperlinks by reference and thus is not required to delete such mere references.

I. REJECTION UNDER 35 U.S.C. § 102(e)

Claims 1-5, 11-14, and 21-24 are rejected under 35 U.S.C. § 102(e). Claims 1-24 have been canceled without prejudice or disclaimer and thus the rejections of these claims have been rendered moot.

III. REJECTION UNDER 35 U.S.C. § 103(a)

Claims 6-10 and 15-20 are rejected under 35 U.S.C. § 103(a). Claims 1-24 have been canceled without prejudice or disclaimer and thus the rejections of these claims have been rendered moot.

IV. CONCLUSION

Claims 1-24 have been canceled without prejudice or disclaimer.

Claims 25-53 have been added.

The Applicant has added new Claims 25-53 to more clearly define the present invention.

The Applicant, therefore, respectfully asserts that new Claims 25-53 are in condition for allowance and requests an early allowance of these claims.

Applicant respectfully requests that the Examiner call Applicant's attorney at the below listed number if the Examiner believes that such a discussion would be helpful in resolving any remaining problems.

Respectfully submitted,

WINSTEAD SECHREST & MINICK P.C.

Patent Agent and Attorney for Applicants
